Summary

I'm a tech enthusiast with 12 years of diverse industry experience
and a strong background of 7 years of experience in software
engineering as a back-end developer, mobile developer, front-
end developer, and full-stack developer. Now I'm transitioning
my expertise to specialize in AI development, leveraging detailed
knowledge and honed skills to drive innovation and create advanced,
impactful solutions for organizations. I'm eager to contribute to
forward-thinking teams and contribute to the advancement of AI-
driven initiatives.
